SUMMARY

Bachelor's degree in Computer Science from Umm Al-Qura University. Experienced in software development, artificial intelligence, and data-driven solutions with a strong foundation in systems design and problem-solving.

EXPERIENCE

Yusr — Smart WhatsApp Companion for Madinah Visitors

Barmajan Al-Madinah Hackathon 2026 | Madinah, Saudi Arabia

09/2026

- Co-developed an AI-powered proactive WhatsApp agent that helps Madinah visitors plan and organize their journey through simple conversations.
- Designed multilingual voice and text interactions suggesting Rawdah permits via Nusk and licensed tour guides, with smart follow-up notifications and human handoff when needed.

Nibras - Quranic AI App Hackathon Project | Makkon Association Hackathon

06/2024 – 02/2025 | Riyadh, Saudi Arabia

- Developed an innovative AI-powered application serving the Holy Qur'an by enabling users to interact with a smart personal assistant for memorization, verse explanations, and error correction.
- Awarded 75,000 SAR for the achievement.

Machine Learning Intern | Samsung Innovation Campus with Misk Skills

09/2024 – 10/2024 | Remote

- Developed machine learning models using Python, TensorFlow, and Scikit-learn to solve real-world problems.
- Cooperated with team members to create full AI solutions.
- Recognized for achieving high model accuracy and delivering clear presentations.
